CNLCP® Certification Board

2019 CNLCP® RECERTIFICATION GUIDELINES

Overview of the CNLCP® Certification Board

The Certified Nurse Life Care Planner (CNLCP®) Certification Board provides oversight of the certification examination for Nurse Life Care Planners. This oversight includes item and examination review (item writing and test question selection); tracking of initial certification and quality assurance of the exam and periodic updates of exam content outlines based on industry trends. A passing score on the certification exam allows a nursing professional to utilize the designation Certified Nurse Life Care Planner (CNLCP®) for a period of five (5) years. The certification board is a voluntary organization comprised of up to eight (8) Registered Nurses, specializing in the field of life care planning, and who have earned the designation of CNLCP®, as well as one (1) public member with an interest in the field.

Mission Statement

The mission of the Certified Nurse Life Care Planner (CNLCP®) Certification Board is to ensure a nursing certification process that validates qualifications and knowledge obtained through professional education and experience in the specialty of nurse life care planning.

The CNLCP® Certification Board:

Recognizes nurses who maintain continued levels of competency as a Certified Nurse Life Care Planner.

Ensures that all decisions made by the Certification Board are taken in accordance with the CNLCP® Certification Board established bylaws and guidelines.

Ensures that initial certifications and renewals meet the established criteria.

Holds in highest regard privacy and confidential information of its Certified Nurse Life Care Planners.

Does not discriminate against any person.

The CNLCP® Certification Board purpose is to:

Establish criteria and direct the Initial Certification Process and Recertification Process for nurse life care planners.

Direct and maintain the national certification examination.

Develop the item writing and test content for certification consistent with evidence specialty standards for nurse life care planning.

Develop criteria and oversee the approval process for Core Curriculum Providers and Continuing Education Providers of educational programs for the Certified Nurse Life Care Planner.

Address any public concerns with regards to Certified Nurse Life Care Planners.

Direct the application process for CNLCP® accreditation by the Accreditation Board for Specialty Nursing Certification (ABSNC).

Position Statement

As healthcare has become more complex, it is increasingly vital to assure the public that healthcare professionals are competent. Individual State Registered Nurse (RN) licensure measures entry-level competence only; and, in so doing, provides the legal authority for an individual to practice nursing. It is the minimum professional practice standard.

Certification, on the other hand, is a formal recognition that validates knowledge, experience, skills and clinical judgment within a specific nursing specialty; and, as such, is reflective of a more stringent professional practice standard. It reflects achievement of proficiency beyond basic licensure.

The CNLCP® Certification Board is a separately incorporated entity that facilitates consumer health and safety through credentialing/certification of Nurse Life Care Planners. It ensures that their practice is consistent with established standards of excellence in the development and defense of the life care planning document.

Similar to consumers knowing to seek out certification status within other professions (e.g. pharmacists, attorneys), certification within the field of nurse life care planning has become an important indicator that a certified nurse is not only licensed by their State to practice nursing, but is one who is qualified, competent and has met rigorous requirements in the achievement of the CNLCP® credential.

CNLCP® Certification Renewal

Certification in nurse life care planning is recognized for a period of five (5) years, at which time the Candidate must retake and pass the current Nurse Life Care Planners Certification Examination or meet such requirements* in effect at the time in order to retain certification. *See the Educational Requirements section below for further details.

The CNLCP® recertification criteria includes verification of sixty (60) continuing education units (e.g., CEUs, points of credit) in nurse life care planning, or completion of at least twelve (12) academic semester credits of nursing coursework related to nurse life care planning at the licensee's current level of licensure or higher.

To renew by points of credit/continuing education unit requirements, the CNLCP® must:

- Have current licensure as a registered nurse, with no restrictions. A copy of your current RN license must be sent with your recertification application.
- Complete the enclosed recertification application listing sixty (60) hours of continuing education units (CEUs) and/or 60 points of credit hours earned within your 5 year certification period.
- Include copies of the Provider Certificates of Course Completion that include verification of course hours. The Certificate should also include the name of the course provider, course title, provider name, date, and location of the course.
- Have no lapse in CNLCP® certification.
- Include required renewal fee of: \$375 for AANCLP® members or \$475 for non-members.

To renew by examination, contact Professional Testing Corporation (PTC) at 212-356-0660 or www.PTCNY.com for an Application and Handbook for Candidates. The exam must be completed prior to the expiration of your certification.

Educational Requirements

A total of 60 points of credit are needed every five (5) years for renewal. The CNLCP® Certification Board points of credit renewal system is designed to encourage professional development.
